In-Line Processor Technology

Specs:

- All wetted components are high grade stainless steel.
- Processor length: 4' to 5'
- Inside diameter: 1" to 8" flow tube
- Outer Diameter: 4" to 14"
- Unit Weight: 50 lbs to 250 lbs.
- PSI: up to 1500
- Flow rate: Consistent with line size
- Built application specific
- No consumable parts
